

## Scoring Writing and Pulling Reports in MMMH

1. Some of you have been asking me how to see a report in MMMH after testing. To do this, you have to first go back and drop in the scores for the writing, even if your students did not type them on the computer. This is the only way you will get a valid score.

2. To score your students' writing, you need to click on the "Score Items" button above.

3. Put all of the scores in and then go back into "Report Results" then to "Group Reports" on the left, and then click on the "assignment summary."
